FIRST AID MEASURES

Skin Contact	Wash thoroughly with soap and water. Cool skin rapidly with cold water after contact with molten polymer. Seek medical attention if redness, swelling, itching, or burning occurs.
Eye contact	Flush eyes immediately with large amounts of water for 15 minutes. Seek medical attention if redness, swelling, itching, burning or visual disturbances occur.
Inhalation	If cough, shortness of breath or other breathing problems occur, move to fresh air. Seek

medical attention if symptoms persist. If necessary, restore normal breathing through standard first aid measures.

Ingestion Do not induce vomiting. If conscious, give several glasses of water. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Symptoms: Product is not classified as hazardous. The most important known symptoms and effects are described in Section 2 and/or in Section 11.

Indication of any immediate medical attention and special treatment needed

Note to physicians: Product is not classified as hazardous. Seek medical attention if symptoms develop.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use dry chemical, carbon dioxide or water spray.

Unsuitable Extinguishing Media: No information available.

Specific hazards arising from the chemical: Burning produces irritant fumes.

Hazardous combustion products: Carbon dioxide (CO₂). Carbon monoxide (CO). Low molecular weight hydrocarbons. Oxidized hydrocarbons. Oxides of nitrogen.

Protective equipment and precautions for firefighters: In the event of fire, wear self-contained breathing apparatus. Wear suitable protective equipment.

Risk of Dust Explosion: Product as shipped is not a combustible dust. However, a combustible concentration of dust may occur when fines are suspended in air.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions: Avoid walking on pellets or powder which present a slipping hazard on hard surfaces. Remove all sources of ignition. Avoid dust formation. Ensure adequate ventilation. Use personal protective equipment. See also Section 8.

Environmental Precautions:

Environmental Precautions: No special environmental precautions required. Prevent product from entering drains. Where possible recycling is preferred to disposal or incineration.

Methods and material for containment and cleaning up

Methods for containment: Prevent further leakage or spillage if safe to do so.

Methods for cleaning up: Clean up promptly by vacuum. Sweep up to prevent slipping hazard. Pick up and transfer to properly labelled containers. Avoid dust formation.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling: Provide appropriate exhaust ventilation at machinery and at places where vapors from hot product or dust can be generated. Avoid dust formation. Take measures to prevent the build up of electrostatic charge. All metal parts of the mixing and processing equipment must be earthed/grounded. Ensure all equipment is electrically earthed/grounded before beginning transfer operations.

General hygiene considerations: Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Storage Conditions: Keep in properly labeled containers. Store in a dry warehouse at a temperature below 30°C.

Incompatible materials: Strong oxidizing agents.
